

GOODProjects Grant Draft

GOODProjects DC Government Grant Draft Events DC Community Grant Program, FY2026: GOODSports
STATUS: Draft for Neo's go/no-go review. Not yet submitted. One required attachment is missing (see Required Attachments Checklist below) and must be resolved before this can go out.

SOLICITATION DETAILS

Agency	Events DC
Program / RFA	FY2026 Community Grant Program (supports youth sports and performing/cultural arts organizations in DC)
Ask Amount	\$18,000
Deadline	August 3, 2026 (per internal grant tracker, dev bible 2026 tab, row 224)
Submission Method	Online form at eventsdc.com/community-grant-form (per public program page). Direct site access was not available from this environment to confirm portal mechanics beyond the published form URL, so re-check before submission.
Program Officer	Not listed in the dev bible entry; needs sourcing before submission
MORCA Registration	Not yet confirmed (Cole)
Clean Hands Certificate	On file, issued 4/23/2026; confirm still current at submission (certificates typically expire)
Go/No-Go Confirmed	Not yet. Routing to Neo.

Award range confirmed via public search: Events DC's FY2026 Community Grant Program awards range from a \$2,500 minimum to a \$25,000 maximum single grant, with \$50,000 available per cycle (two cycles/year, \$100,000 annually). GOODProjects' \$18,000 ask sits comfortably inside that range.

VERIFY BEFORE SUBMITTING: Events DC requires either a certified annual financial audit or the most recent Form 990, plus an active DC business license. The audit and 990 are on file; the business license is not yet on file anywhere in GOODProjects' compliance records. This is a hard requirement and must be resolved before submission. Concrete next step: apply for DC's Basic Business License (charitable

solicitation subtype) through DLCP’s online licensing wizard at mybusiness.dc.gov, which auto-generates the required attachment list. This is an operational task for Cole, not something this draft can resolve on its own.
